Summary

Results-driven Frontend Developer with 6 years of experience specializing in Angular, React, Ionic and modern frontend technologies. Proficient in designing and developing scalable, responsive, and high-performance web applications. Expertise in JavaScript, TypeScript, HTML5, CSS3, and SCSS, with a strong understanding of UI/UX principles. Skilled in integrating RESTful APIs, optimizing performance, and ensuring cross-browser compatibility.

Skills

Web Technologies	:	HTML5, CSS3, Bootstrap, jQuery
Frameworks/Libraries	:	Angular, React JS, Ionic, Angular Material, Prime NG, ngx-bootstrap
Languages	:	JavaScript, Typescript, Node.js
Databases	:	MySQL
Low Code	:	OutSystems
Visualization	:	Kendo charts, Apache e-Charts
DevOps Tools	:	AWS, Azure, Digital Ocean, GitHub Actions
Package Management	:	npm, Azure Artifacts

Skills Summary

- **Developed and optimized scalable Angular applications**, improving performance through lazy loading, efficient data binding, and NgRx state management.
- **Integrated advanced data grids** (Kendo Grid, Angular Slick Grid) to handle large datasets efficiently, enhancing data processing speed with optimized sorting, filtering, and pagination.
- Enhanced application responsiveness and user experience by implementing Bootstrap, ngx-bootstrap, and ngx-bootstrap, ensuring 100% cross-device compatibility.
- **Strengthened application security and accessibility compliance**, following best practices and web standards to protect user data and ensure inclusivity.
- **Automated deployment processes using AWS services**, reducing manual deployment efforts and ensuring seamless environment-specific releases.

- Designed and developed UI layouts following client UX standards and design systems, using **Angular Material** and **Prime NG** for responsive and visually appealing interfaces.
- **Collaborated with backend teams** to integrate **RESTful APIs** into Angular applications, ensuring smooth data communication.

Work Experience

Senior Software Engineer

Plural Technology Pvt. Ltd, Hyderabad | Jul 2024 - Present.

- **Built a responsive Angular 17 frontend** for a document analysis solution powered by **OpenAI**, incorporating modular design and seamless API integration.
- **Upgraded Ionic Angular Cordova app** to latest Ionic **Capacitor version** that works for both **Android & IOS**.
- **Led the frontend development** of the company's in-house product '**Structured Data**' using **Angular 17**.
- **Refactored an avatar-led GenAI React application** into an **embeddable widget**, enhancing flexibility and reusability across multiple web applications.
- Successfully **upgraded the application** developed on Angular 11 to Angular 17 within **three weeks** while ensuring full functionality persistence
- **Implemented complex data grids** (Kendo Grid, Angular Slick Grid) for efficient handling of large datasets with advanced sorting, filtering, and pagination.
- **Collaborated with backend teams** to integrate APIs, ensuring seamless data flow, while managing version control using **GitHub Desktop** in a collaborative team environment.
- **Ensured accessibility, security compliance, and optimized application performance**, leveraging best practices in change detection, lazy loading, and minimizing bundle size.
- **Managed deployments and participated in Agile workflows**, handling **AWS-based deployments**, conducting code reviews, and actively contributing to sprint planning and retrospectives.

SOFTWARE ENGINEER

Plural Technology Pvt. Ltd, Hyderabad | Jul 2023 – Jun 2024.

- **Collaborated** with the PwC team on projects related to Contracts and Compliance using **Angular** and **Node.js**.
- **Developed** the Obligation Module in the Insights application, integrating screens for various **roles** and **workflows**.
- **Handled dynamic forms** with complex conditions to display the appropriate UI based on user roles.
- **Implemented Angular-Slickgrid** row expansion with pagination in grids for better data presentation.
- Contributed significantly after joining mid-sprint, resolving around 50+ high-priority bugs in Angular and Node.js projects

SENIOR UI ENGINEER

A.I.Zen Algo Pvt. Ltd, Hyderabad | Mar 2021 – Jun 2023.

- Developed applications for the **Pharma Industry** using **Angular, ReactJS, Node.js** and **OutSystems**.
- Created **data visualizations** using **Apache e-charts** within Angular applications.
- Built and deployed **full-stack applications** using **OutSystems**, a low-code platform
- Managed deployments to different environments (**Dev, Test, and Prod**) using OutSystems.
- Created **reusable packages** and deployed them to **npm via Azure Artifacts**.
- Led a **cross-functional team of five** (2 backend, 3 frontend) to develop and deliver the '**Clinical Label Management System**' in six months.
- Developed dashboards with **Apache e-charts**, providing insights for **QualZen**, a quality-checking product in pharma workflows.
- Built and maintained the **company's website** using **WordPress**, managing themes, reusable pages, and integrating AdSense.

Front-end Developer

Freelancing, Visakhapatnam | Mar 2020 – Feb 2021.

- Developed **company websites** for clients using **WordPress** and **custom JavaScript**.
- Built an **Inventory Management System** using **Angular and Node.js**.
- Gained hands-on experience with **Heroku, Google Cloud Platform (GCP), Digital Ocean Droplets** for full-stack deployments.
- Developed a **personal project** for posting literature content using the **MEAN stack (Angular for UI, Node.js and Express for backend, MySQL for database)**, completing it in just two weeks.

Web Developer

Yantranet, Visakhapatnam | Aug 2019 – Feb 2020.

- Started as a **Web Developer**, fixing UI issues, and later transitioned into an **Angular Developer**.
- Developed **responsive webpages** adaptable to different screen sizes, from mobile to large advertisement screens, using **CSS media queries**.
- Assisted in backend integration using **Node.js and Express**, enhancing API performance.

Education

Bachelor of Technology in Computer Science and Engineering - 2019

Acharya Nagarjuna University, Andhra Pradesh
