Summary

As an aspiring **Trainee Aircraft Maintenance Engineer**, I am dedicated to upholding the highest benchmarks of airworthiness and safety through meticulous troubleshooting and precision maintenance, and I am fully prepared to **pursue specific type ratings and endorsements** to provide long-term, high-level technical service to your fleet.

Skills

- Maintenance and Repair
- Confined space (Fuel tanks) maintenance support as per safety procedures
- Defect rectification and MEL/CDL procedures awareness
- Planning & Coordination
- AMM/FIM/WM/SWPM Interpretation
- MS word, Excel, Aircraft ERP
- Manuals preparation

Accomplishments

DGCA PARTICULARS

- ✈ **RTR (A) License Holder**
- ✈ **B2 – AVIONICS ALL MODULES**

Proven track record in successfully executing Line Checks and Major Base Checks on **Embraer 135 aircrafts, ranging from 12-month to 192-month intervals (1-yearly to 16-yearly), and on Embraer 190 aircraft, ranging from 1-yearly to 10-yearly**. Also performed transit inspections and unscheduled maintenance, troubleshooting, ensuring aircraft airworthiness, reliability, and operational efficiency.

Played a key role in establishing and obtaining **DGCA and San Marino approvals** for a **CAR 145 organization**, including multiple **Line and Base stations**, covering preparation of organizational manuals and regulatory coordination.

Experience

MANAH AEROSPACE AND
ENGINEERING PVT LTD
Technician
01/2025-Current

- Actively supported the **setup** and approval of a **DGCA CAR 145 organization**.
- Performed Line and Base maintenance, schedule maintenance checks and Out Of Phase inspections on **Embraer 135BJ aircraft fitted with RR AE3007A1/A1E/A2 Engines**.

- Performed Line and Base maintenance and Schedule Maintenance of 1Yearly on **Embraer EMB 190-100ECJ** aircraft fitted with GE CF34-10E7B Engines.
- Performed Schedule Checks- LU6, LU12, LU24, LU48, LU192 on Embraer **EMB135BJ(Legacy 600)** aircrafts fitted with RR AE3007A1E Engines which includes operational and functional checks of avionics systems, Detailed wiring inspection of FQIS system, Annual inspection of CVR, EWIS of all swamp areas like Landing Gear and flap section.
- Performed functional tests on Avionics systems to ensure proper performance. Diagnosed Avionics system issues using FIM and system schematics and Wiring Manual.
- Experienced in working on critical avionics systems, including Communication, Navigation, Flight Instruments and Electrical Interface systems ensuring operational reliability with aviation standards.
- Performed fuel tank cleaning, inspection, and maintenance activities by entering inside aircraft fuel tanks, ensuring strict compliance with approved aviation safety procedures and standards.

MYTRI AVIATION PVT LTD
Technician
 06/2023-12/2024

As an Avionics Technician at Mytri for 2 years, gained extensive hands-on experience on **EMB-135BJ Legacy 650** aircraft, performing maintenance up to and including 8-yearly (**HU 96**) Major Checks and Service Bulletins (SBs). Also worked on **ERJ190-100ECJ (Lineage 1000)** aircraft, **carrying out 10-yearly(M10) Major Checks**. Additionally, worked as a **Fuel Tank Technician**, performing fuel tank entry, inspection, and maintenance activities.

- Inspected, tested, and repaired avionics systems such as navigation, communication, auto-pilot, and instruments. Maintained aircraft electrical wiring harnesses for airworthiness standards.
- Performed functional tests on avionics systems to ensure proper performance. Diagnosed issues with avionics systems using technical manuals and schematics.
- Installed new avionics components, LRU's in accordance with maintenance procedures.
- Troubleshoot and resolved complex problems associated with aircraft electronic systems.
- Programmed software updates into onboard computers to enhance operational performance of aircraft systems.
- Monitored cockpit displays during ground tests and simulated flights to detect any anomalies in the system's performance.
- Maintained a 100% positive feedback rating from engineers.

MYTRI AVIATION PVT LTD
Tr. Technician
 03/2023 - 06/2023

As a Tr. technician i have hands-on experience assisting Engineers in performing the tasks on EMB-135 BJ (Legacy 650) & ERJ 190-100 ECJ (Lineage 1000) Aircraft, include 2 heavy utility checks and 10 yearly checks (major Check).

AirIndia Engineering Services
Limited
Implant Trainee
01/2021 - 01/2022

- Successfully completed 1Year as trainee getting acquainted with live aircrafts including Airbus A320; Airbus A321; Airbus A319 & ATR 72 aircrafts
- Demonstrated strong technical aptitude and professionalism, consistently receiving 100% positive feedback rating from instructors and engineers while developing practical exposure to aircraft maintenance and operational procedures and working culture.

Wings Aviation
Trainee Tech

As part of my requirements for the MSC in Aviation, I have successfully completed OJT on Learjet 25B. I have also completed 6 months of practical training and assisted in basic tasks that provided me with hands-on experience in maintenance operations, allowing me to develop a deeper understanding of aircraft systems.

Education

JNTU | Hyderabad

Msc. In aviation

- Completed M.Sc. in Aviation with an overall academic performance of 85% .

Telangana State Aviation Academy | Hyderabad

AME B2

- Successfully completed AME With having 85% overall including practical and theory.

Alwardas Public School | Vishakhapatnam

10+2 MBIPC

- Academic achievements and honours: School Topper in 10+2 ISC Board Exams.

Certifications

- Post Graduation in Msc. In Aviation

Languages

- English – Fluent
- Telugu – Native / Fluent
- Hindi - Basic proficiency

I hereby declare that all the information stated above is true to the best of my knowledge and belief.
